WUSPBA Soloist Aggregate Points

How WUSPBA Soloist Aggregate Points Are Earned

In order to determine the yearly champions, the Western United States Pipe Band Association tracks the results of solo competitions within the WUSPBA area. There are several limitations to be aware of:

- Only solo events that match the approved events as provided for in the WUSPBA by-laws are tracked.
- Only contests that occur within the area sanctioned by WUSPBA are tracked.
- Only contests that adhere to the contest rules as provided for in the WUSPBA by-laws are tracked.
- To earn aggregate points you must place in top 5 positions in the event. If the event is separated into 2 or more leets and a playoff is conducted, the results of the playoff are used.
- Solo competitors that finish in the top five places for an event will earn one point for each competitor they best and an additional point for completing the contest. For example in a 10-person event, the first place competitor will earn 10 points, the second place competitor will earn 9 points, and so on, until the fifth place competitor, who earns 6 points.
- The number of competitors shall be the actual number of judged competitors, as opposed to the number of entries. Competitors that enter an event but scratch or do not show are not counted in the total number of competitors.
- Competitors that start the competition but break down, and do not finish the competition will not be awarded any points, even if they are in the top 5 positions. However, the competitor will be counted for the purposes of determining the total number of competitors.
- Players who are disqualified are counted as a competitor, but will not be eligible to earn points.
- In events that have two or more leets and a playoff, the total number of judged competitors in all of the leets in that event are used to determine the number of competitors.
- Aggregate prizes awarded at a contest by the contest sponsor are not counted in WUSPBA point standings.

Example 1:

Suppose there is a Grade 4 Piping 2/4 March competition with 36 entries. The contest organizers elect to divide the competitors into 2 leets, with 18 competitors in each leet.

On the day of the competition, 3 competitors scratch, so the first leet has 16 entries, and the second leet has 17 entries. In the first leet 3 competitors break down. In the second leet, 1 competitor breaks down, and 1 competitor is disqualified for playing a 4/4 march.

The total number of competitors for the competition is 33. Thus, the breakdowns and disqualified competitors did not reduce the number of competitors.

The top 3 competitors from each leet are placed into a playoff competition. The first place competitor in the playoff will earn 33 points. The second place competitor in the playoff will earn 32 points. The third place competitor will earn 31 points. The fourth place competitor will earn 30 points. The fifth place competitor will earn 29 points. The other playoff competitor (that finished in sixth place) will not earn any points.

Example 2:

Suppose there is a Grade II Piping Hornpipe/Jig competition with seven entries. Two of the entries scratch, which results in five judged competitors. One competitor breaks down during the Jig, and does not finish. Four competitors finish.

The first place competitor will earn 5 points. The second place competitor will earn 4 points. The third place competitor will earn 3 points. The fourth place competitor will earn 2 points. The remaining competitor will not earn any points, since he broke down and did not finish the competition.
